

## ASSEMBLY INSTRUCTIONS FOR YOUR BLING SCONCE

### IMPORTANT SAFETY INSTRUCTIONS:

- \*These instructions are provided for your safety. It is very important that they are read completely before beginning the installation of your fixture.
- \*DIRECT WIRE FIXTURES: WE STRONGLY RECOMMEND INSTALLATION BY A LICENSED ELECTRICIAN.
- \*Turn the power to fixture off before replacing bulbs, making sure the bulbs have sufficient time to cool down. Do not subject the fixture to any shock while lit as shattering of bulbs may result.

### ASSEMBLY INSTRUCTIONS

1. SHUT OFF THE MAIN ELECTRICAL SUPPLY FROM THE MAIN FUSE BOX/CIRCUIT BREAKER.
2. Remove all parts from carton. Do not throw away any parts.
3. Remove decorative nuts (B) from screws (D). Remove backplate and socket cluster (A) from frame (C).
4. Pulling wiring from "J BOX" and guide through large hole in universal mounting pattern cutout in frame (C).
5. Affix frame (C) to "J BOX" using screws (E) provided.
6. Hold backplate (A) near wiring from "J BOX" and make proper electrical connections.
7. Connect ground wire (green/silver/copper) from the fixture to the ground wire in outlet box. Connect the black wire of the fixture (or smooth side of the wire) to the black wire in the outlet box using wire nuts (H). Connect the white wire of the fixture (or rough side of the wire) to the white wire in the outlet box using wire nuts (H).
8. Push wiring back into "J BOX" and affix backplate (A) to frame (C) using decorative nuts (B).
9. Install two (2) 60W max. Type G16 (GLOBE) candelabra base bulbs into sockets.

### CARE INSTRUCTIONS:

- \*To clean, use a soft cloth only. DO NOT use any chemical or abrasive cleaners.
- \*White gloves have been shipped with each sconce. Please wear gloves to keep the fixture clean during installation.

### GLASS DROP INSTALLATION:

- \*\*It is recommended to use needle nose pliers (not included) when install the small glass drops (F).\*\*
- \*\*Recommended by the vendor to install the glass drops (F & G) on the bottom band first and continue upwards to the top band.
- \*\*Reference the "Assembled Sconce" illustration above for glass drop (F & G) orientation.\*\*

1. Remove packaging from glass drops (F & G). NOTE: The fixture is designed to have alternating size glass drops (F & G) on each band.
2. Start with a large glass drop (G). Notice the metal connection attached to each glass drop has a large and small side. Please see images below for reference. Insert the larger connection side into a hole in the band. With your index finger guide the smaller connection side into the hole securing glass drop (G) to the band. NOTE: A small amount of adjustment maybe needed for each drop to hang straight.
3. Needle nose pliers are recommended when installing small glass drops (F).
4. Locate the large and small connection side of the small glass drop (F). Firmly hold the vertical section (smaller connection side) of the metal connection with the needle nose pliers (see images below for reference). Insert the large connection side (same procedure as the large glass drop (G)) into the hole on the left/right side of installed large glass drop (G). Using the pliers insert the small connection side into the hole securing glass drop (F) to the band.
5. Repeat steps 2 and 4 for each band until all glass drops (F & G) are installed.
